Work Experience

Freelance Web Developer

2023 - Present

Built a project for birder clients using Node.js, Puppeteer, and Typescript. eBird crawler crawls the Cornell database and iterates through checklist pages. Map data is then extracted and concatenated into a single large map using a Library (Leaflet) on an HTML page.

Robert Graham

2021 - Present

Associate Graphic Designer

- Developed Graphics and artwork for Robert Graham mainline knits and wovens
- Initiated the use of DALL E 2 for creating artwork for the design team.
- Implemented the use of Node.js to generate artwork.

Freelance Illustrator

2013 - Present

Client list includes:

- Scientific American • Fast Company • Rhino Entertainment (Grateful Dead)
- AARP Magazine • The New Republic • Bust Magazine • The Boston Globe
- The Intercept • Car and Driver
